RYAN PLATT

MBA, ChFC®, ChSNC™, CFBS

Ryan Platt, MBA, ChFC®, ChSNC™, CFBS, is the founder and creator of the **A Special Needs Support** app. He is also the founder and CEO of **A Special Needs Plan** (2005), a nationwide planning advisory firm, based in Charlotte, NC and founded to specifically serve families with special needs.

Ryan's background includes completing his Special Care Planner Certification as well as advanced training in estate and tax planning, special needs trusts and government programs. He understands the emotional dynamics of working with people and families who have loved ones with special needs.

He created the **A Special Needs Support** app after recognizing the challenges families face in organizing and coordinating the "second support team" — the trusted individuals who step in to care for a child with special needs when parents are no longer able to do so. Ryan is committed to working closely with families to understand their concerns, clarify their values, and develop strategies that help protect and support both the current and next generation.

He is also an award-winning author from **Autism Parenting Magazine** and a regular contributor to **Exceptional Needs Today Magazine**.
